

HOW IT WORKS

CartoTracks' Moss Rock Preserve map is designed to be loaded into a smartphone (Android or iOS) *BEFORE* losing cell signal. Then, when opened using the recommended app (Avenza PDF-maps), only the phone's GPS function is required to reflect your position on the map. As you move around within the boundaries of Moss Rock, the blue locator dot will show your position on that map. All the map information you need (trail names, numbers, water crossings, etc...) is completely accessible through your phone. It's that simple!

**To download your copy of the CartoTracks Moss Rock Preserve map, follow the numbered steps below.
When downloading, be sure to have a strong data/Wi-Fi signal:**

1. Through your App store, download the Avenza PDF-Maps app to your Android or iOS device.
2. Visit the CartoTracks online store (<https://www.cartotracks.com/maps>) and purchase your copy of the map titled "Moss Rock Preserve". Copies cost \$4.95 each.
3. Once checkout is complete, you will receive an e-mail from the CartoTracks store.
** Please check your spam folder if you do not receive an email after ordering.*
4. Now based on the device you're using, simply follow the Android or iOS instructions listed below:

ANDROID DOWNLOAD

INSTRUCTIONS

1. COPY (TOUCH & HOLD - then COPY) the web link from the CartoTracks email that you received.
